Seven years ago Morris Meyerfeld knew no more of the theatrical business, practically speaking, than an old-time Methodist parson. Today he is a power to be reckoned with in every managerial office in America.

The old Orpheum theater on Main atreet, in this city, was one of Meyerfeld's starting points, and this house has been a strong factor in his successful career from the beginning. During the past four years it has paid in profits to his coffers more than 250,000. Another Unsuccessful Attempt by Clark and Bryan to Storm City Hall Yesterday.

This statement was made last night

by a prominent city official. It was the outcome of a heated interview with the life of the last Council. Clark & Bryan submitted a plan for the subdi-vision of the Ballerino property, lying north of Pico street and east of Veralley, and the lots touching the avenue within the tract, bringing the rear of the lots directly opposite a number of homes built on Vermont avenue.

go to hell.

Be that as it may, the firm went ahead and laid out the Westmoreland tract and Westmoreland Place as originally planned. After the fashion of a close corporation they turned the lots around on the edges of the tract and faced them on private streets, leaving the rear of the lots to face on the established thoroughfares. This was true not only on Vermont avenue, but on Park View and other streets.

The street work was done by private.

on Park View and other streets.

The street work was done by private contract and without inspection by the city authorities. No attempt was made to preserve uniformity in the street lines. It is said that the arbitrary arrangement of streets insisted upon by the firm has resulted in an imperfect drainage system in that section. Great, trouble was experienced with storm water in the district last year.

A CHANGE OF HEART.

Now it appears that Clark & Bryan have discovered that it was not so much fun defying the Council after all.

"You may say that I will not vote for the approval of a map of that tract until the work is up to the specifications," said Bowen last night. "I cannot say whether I would vote for it are the same than I would have to investigate further before reaching any conclusion on that point."

Bowen was in the Council that demanded a change in the plan of subdivision and his colleagues will be guided in great part by his views if they are not compelled to see the situation in a different light.

The streets will not be sprinkled and no care will be taken of them by the city.

At present the property is assessed as acreage. Individual property owners must file a statement with the Assessors describing their holdings by metes and bounds in order to arrange for the payment of taxes on their lots. All this is not very pleasant, and Clark & Bryan are now leaving no stone unturned to secure the acceptance of the tract. It now seems probable that they will not succeed without the expenditure of thousands of dollars on street work. The firm has relied on the influence exerted by persons buying property in the tract to help them out of their difficulties and it remains to be seen how effective this will be. One city official did not mince words in discussing the matter. "It is a shame that such proceedings are allowed," he declared. "Such hoggishness as shown in the subdivision of that tract has ruined the appearance of our city. It was a disgraceful trick to spoil Vermont avenue in such a way as that is a through street running through the city for many miles and the plan leaves it little more than a back alley. Of course the city can condemn the property some day, but that won't change the rear end of those lots, and it won't make up to people for the ruin of their homes."

There is an ordinance passed by the Council about two years age which figures in the pending controversy. It provides that no offer to dedicate any street for public use shall be accepted unless the street work is according to specifications as attested by the proper officials.

Of course the Councilmen can ignore this ordinance and accept the map of the tract over the heads of the City Engineer and Street Superintendent. But will they?

In the first place, they have not yet secured deeds to their property. The only deed that can be issued under present conditions must describe the property by metes and bounds. This is an unwieldy instrument and not in favor with investors. There was no meeting of the Police Commission yesterday morning for want of a quorum. Commissioner Rule was on hand, but Commissioner Keeney failed to appear, and after waiting an hour adjournment was taken until this morning. Commissioners Craig and Lang are still out of the city.

The evils of the present system of issuing regular police stars to deputies in the employ of the city departments were discussed at some length in the Mayor's private office. There has been a dispute between the police and the street department ever since last Flesta regarding these stars. Some time star street department ever since last Flesta regarding these stars. Some time ago the Council passed an ordinance nam-ing a number of street and sewer in-spectors, health inspectors and other officers of the city as regular police-men. This was done chiefly to enable the deputies to ride free on the street

A dispute arose between the city aua dispute arose between the city au-thorities and the railway companies about the number of stars that would be recognised and the number was finally fixed by the company so that several deputies were left out. The Police Commissioners and Chief Eiton believe that only regular officers of the

mally fixed by the company so, that several deputies were left out. The Police Commissioners and Chief Eiton believe that only regular officers of the police force should have the police stars, but in accordance with the Council's order some stars have been issued to inspectors.

These deputies who failed to get stars have presented demands to the Finance Committee of the Council covering, the car fare expended on their several trips around the city and these demands have always caused discussion.

In fact, the system has prooven so unsatisfactory that the authorities are thinking of making a radical change. Mayor Snyder has proposed a scheme which has met with general favor, and it is not improbable that the Council will consider the repeal of the ordinances and establish the Mayor's proposed system, which is to issue pass books containing a certain number of tickets to each deputy, in this way the head of sich departs ent con keep count of the number of tickets used by each deputy and can judge very well of the expense incurred.

This plan has met with favor from the street railway company, and it has promised Mayor Snyder to issue these special books et school rates. The use of the pass books only be limited to certain hours, so that the city can be protected against their indiscriminate was a second of the pass books will be limited to certain hours, so that the city can be protected against their indiscriminate was a second of the property was a south of the street are 159 feet deep, however, the use of regular polics stars by the inspectors and deputies is not asactioned by the Police Commission. The system is subject to so much abuse, and the police department is held responsible for the acts of men over which it has absolutely no control. I believe that it books were issued the deputies by the heads of departments hat the car-fare in the car fare is the car fare is the car fare in the car fare is the car fare

"There are two sides to this garbage question," declared Mayor Snyder yestive on control. I believe that it books were issued the deputies by the heads of departments that the car-fare item could be taken care of without great expense and with satisfaction all around. There is no question in my mind that the city should pay the car fare of these deputies.

"The railway company naturally objects to carrying a number of men for whom ne provision is made in the franchies. The company declares that it buys a franchies subject to a provision that requires the free transportation of the Mayor, members of the Council and other officers of the city. An objection is made to carrying any other employes of the city, and the objection seems to be well based. The company appears willing to come half way, and I should be glad to see the Council adopt the suggestion."

"This is just as easy as can be," he said. "It says right here in the contact that the Board of Health shall notify the Council whenever they think

CITY AND COUNTY.

OPINION ON CONSOLIDATION.
"I believe the consolidation of city
offices under our freeholders' charter

offices under our freeholders' charter with county offices under a general law cannot be done under our Constitution," declared City Attorney Mathews last night.

The City Attorney has been looking into the law bearing on the consolidation of the offices of city and county assessor and tax collector and his present opinion is that such a consolidation would be unconstitutional and not in accord with our general scheme of government. However, a further investigation will be made and some way may be found to get around the legal technicality.

be found to get around the legal technicality.

It will be remembered that the Supreme Court handed down a decision to the effect that in local affairs the city charter must govern. City Attorney Mathews holds that under this decision the people of Los Angeles cannot take advantage of the law passed in 1855 for consolidation of city and county offices.

A suggestion that an amendment to the charter might be adopted, providing that whenever the people express at the polls their desire to consolidate the city and county offices under the law of 1895 they may do so, has not had much thought from the City Attorney. Last night he said he was inclined to believe the plan not feasible because the assessor would be under the control of the Legislature and the city might at any time be left without the officer by the dictum of the legislative body.

There are other complications which are now being subjected to legal scrutiny.

At an adjourned session of the Coun-til yesterday morning a resolution was adopted to the effect that architects

smile that Councilman Farish might envy.

"This is just as easy as can be," he said. "It says right here in the contract that the Board of Health shall notify the Council whenever they think the contract unastisfactorily executed and than the Council can act. At the next meeting of the board we will just notify the Council of that fact—we have already done so once—and then we will refuse to approve any more demands for the garbage contractor."

Of course the Board of Health may have a word or two to say on the question aside from this formal action.

And then the Mayor smiled again.

Few Reductions Made.

Only two reductions of moment were made by the City Board of Equalization resterday, and these were in the cases of charitable institutions. The assessment on the Kaspare Cohn Hospital in the Angeleno Heights tract was reduced from \$2775 to a nominal assessment of \$100, and the assessment on the Good Samaritan Mission on San Fernando street was cut in the same way from \$10,618 to \$100. The board considered a number of minor applications for reductions in the assessments on personal property and realty, but only a few small reductions were granted.

charged that the defendant company basely got the Street Superintendents of Los Angeles, South Pasadena, and elsewhere to refuse such permission. Judge Trask rules that, as the Supreme Court holds the Lowe Company had the legal right to lay pipes in the streets, the defendant company cannot be held liable, for damages, even assuming that it did procure the pasage of such forbidding ordinances; the point is that if the ordinance was illegal it did not stop the company from laying pipes any more than did the retusal of the Street Superintendent to give his permission.

He thought he would have a better chance of getting a job if he had a suit of the clothes he saw in Smith's window. Extensive repairs are being made at the establishment, and over the top of the door was a large open space. In front of the door stood a wooden horse, so all that Gordon had to do was to mount the horse, climb over the door, and secure the coveted wardrobe. He took two full suits and an extrapair of trousers, and a few hours later stopped at a printing office on First street and asked to be allowed to go to the rear and change his clothes. He arrayed himself in a dark suit, and carried the extra trousers, probably with the idea of pawning them, but still had them when captured. The other suit he wrapped up with his old overalls and left them to be called for later. Suppose, however, that she believes the man means it all and that she returns his feelings. What is the result? Two roads lie before her. THE DIVORCE DISEASE.

In this day it is apparently becoming a little ridiculous to speak of a divorce as a municipal and a series as a matter over which one need blush. It is unsafe to mention the institution in many of the finest families in this years is that times have and we with them, and that many one considered immoral desended allowable, or, at the synthesis of the synthesis In this day it is apparently becoming

something more stable than an ordinary flirtation)—he looks for "fresh fields and pastures new"—and finds just what he seeks. And the more of that kind of thing he seeks the more he wants. Truly, the appetite comes and increases with the eating of the forbidden fruit. It dulis one's moral sense until one at last is surprised to find that those things that shocked him once shock him no more. He can contemplate possobilities that once were abhorrent to him. He does not think that the contemplation of such possibilities is an insuit to the woman he admires, or professes to admire. The truth being that he admires her because she ministers to his vanity. Perhaps the fact that there are so many flirtations that lead to evils of various kinds must be the excuse for the growing suspicion felt by society at large with regaard to any sort of intimacy between married men and women. As there are exceptions that prove every rule, it is not always safe or charitable to view all such intercourse with indignation. There are, let us be thankful to say, pure friend-ships between married men and single or married women—such friendships as

But what we can deprecate is the growing toleration for the married man who boasts of his lady-winning man who boasts of his lady-winning propensities. Society welcomes him with open arms and invites him to her dinners. As society pretends to observe the laws of conventionality, she also invites his wife, because it would lok had to leave her out. It is fortunate for the wife, viewed from a worldly standpoint, if she is such a one as her husband. Then it is diamond cut diamond, and one need waste sympathy on neither. To use a vulgar expression, "one is as deep in the mud as the other is in the mire."

It has been my pleasure lately to hear a clear-headed man express himself upon this matter of married fiirts. So seldom does one hear such an expression of feeling that it had the charm of novetty. He said:

"Gloss it over as you" may, a flittation with a married woman or man is wrong. I have no wife, but had I one I would not want a man to play at courtship with her. It would be cowardly for me to do to another man's property that which I would allow no one to do to mine. I would scorn to firt with the wife of a man who was my enemy—and as to my friend—well, the man who makes love to his friend's wife is a cur!"

The chapel is of granite, and is of pure Gothic design. It is 24x52 feet, with a tower 65 feet high. The entrance will be on the side.

The interior will follow the Gothic lines in its finishings. Pews are to be placed, and a magnificent marble and onyx altar is being constructed in Italy for the new chapel. It will arrive here early in the fall.

Three memorial windows will admit Brooklyn, their present home. Mrs.

It a young housekeeper, thirsty for knowledge, and I have learned quite a title from reading your articles, and I want to ask a few questions.

1. And to commence, will you kindly tell me how to launder silk halders so they will not get yellow? My husband has some fine ones, and I ad not to trust them with the maid.

Next, will you please tell me how to proceed to scour an Axminster and a narug? They are both large and the Smyrna rug is a double one. ow. I want to contribute my-little mite. I see a correspondent asked why one doesn't publish the exact quantity for just one pie. My husband is fond, as when I first started to housekeeping I determined to learn to make a and had a number of dismal failures, until a kind friend told me just how to one pie; so, if you care to publish it, here it is. It is called the "one, two, ruis" and is infallible.

wash the handkerchief Quickly in Fairly warm water with fory or other pure white soap. Rinse through three waters, the last barely tepid. Get all the soap out of the silk. Hang in the shade, but in the wind, to dry. While still damp, lay the handkerchiefs upon the covered ironing board, spread this muslin over them and iron quickly and hard with a not too hot iron. Soap and hot irons are responsible for the yellowing.

2. Send stamped envelope to me for directions.

ADD SALT TO THE BUTTERMILK, AND LEAVE THE SKIRT IN IT ALL night. In the morning wash with pure warm water; lay in the sun, and coat the mildew with a paste of sait and lemon juice. Sun all day, wetting several times with lemon juice. Leave the paste on all night. Wash then in the usual way. If these directions be followed carefully, the mildew will disappear.

FREPARE FOR THAT MOST SOCIAL, LEAST EXPENSIVE AND LEAST FOR mai of social functions—afternoon tea. Pour tea and chocolate in the dining room and let the elderly people take their tea in there, at small tables, if the room be spacious. If not, have the cups passed in the parlor and upon the veranda. Serve sandwiches of various kinds, cake and strips of buttered toast with the tea and chocolate. If you choose to make the addition of bouillon, hot or iced, to the menu, so much the better.

The Cure of Chronic Diseases Depends Upon Experience of the Right Kind and a Scientific Treatment Directed at the Exact Cause.

Good results are not had by guessing, but by knowing what to do and how to do it. Patients who have been disappointed, and who have chronic conditions follow improper treatment or neglect, are especially anxious for the right kind of treatment. With my treatment and methods that are rational, and personal attention, you will note improve ment from the first, which will be the beginning of a cure and a re-establishment of normal conditions. Many weaknesses and conditions requiring treatment are directly traceable to the reproductive system. My examinations are searching and you may know what you can depend upon.

"GREAT ECONOMIC FIGHT."

Chamberlain Counsels Coolness in Defending the Sugar Convention Bill in

(BT THE ASSOCIATED PRESS-P.M.)

(BT THE ASSOCIATED PRESS—P.M.]
LONDON, July 29.—The House of Commons today passed the sugar convention bill to its second reading by a vote of 224 to 144.

In the course of the debate upon the bill, Colonial Secretary Chamberlain, in defending it, said: "For twenty years we have tried to secure the voluntary abandonment of bounties. It was only when we changed our policy and suggested retaliation that we secured the object for which we had struggled so long; that we finally escaped a condition of things under which Austria and Germany would be able to regulate the price of sugar in Great Britain.

Chamberlain said the bill would not increase the price of sugar, but by given

Chamberlain said the bill would not increase the price of sugar, but by giving greater stability and certainty to the trade would benefit the sugar interests. Referring to the possibility of losing the American market he said: "If we had only treated the West Indies fairly there is no reason why they should not be supplying us with the greater part of our demand. The government has had the choice between prohibition and rebating duties."

Chamberlain believed prohibition the simplest plan, but should it be necessary he would take the opinion of Parliament upon the question of countervailing duties. He did not touch directly upon the fiscal question, but incidentally remarked: "We are on the eve of a great economic fight and it behooves everybody to keep cool as long as possible and not turn this economic into a personal fight."

Venezuela, has been deprived of his exequatur, according to passengers who have just arrived from La Guayra. The action is the result of friction between the Consul and the local authorities over the Spanish claims in his district against Venezuela.

The passengers say that the Spanish Consul requested the authorities at La Guayra to give him permission to attend the meetings of the claims commission. It is alleged that the prefect of the commission replied in a letter in which he spoke of the Consul as "the son of pillagers," and subsequently distributed printed copies of the letter in the streets of La touyra. The Federal drawn the Consul's exequatur, withdrawn the Consul's exequatur, withdrawn the Consul's exequatur, withdrawn the Consul's exequatur, withdrawn the Spanish Minister.

The thousands of discouraged people who dread summer's approach because they think that hay fever cannot be avoided, will read with interest and gratitude the following statement from Helen F. Williams of Mansfield, Mass. "For twenty-seven years, from the month of August until heavy frost, I have been afflicted with hay fever, growing worse and worse each year, and of late years I was unable to attend to my work during that period. "Last summer I fortunately gave Hyomei a trial and am happy to say that it entirely cured me and I have had no return of the affliction since." This letter is one of many that have come to the proprietors of Hyomei,

THIS STORE OPEN ALL DAY TODAY

\$1000.00 TO PROVE A BOYCOTTER'S LIE.

That same contemptible triumvirate, Rogers, Hay and Biddle, not daring to publish through the columns of their official organ a malicious slander, p aced on the back of the program used at the Chutes Park picnic last Sunday statements which were supposed to emanate from A. Hamburger & Sons concerning working men and women. We will pay \$1000.00 in cash to some charitable organization to any one who will come forward and prove that such assertion was made. We brand it as a lie of the basest sort; but emanating from such a source is not unexpected. Working men and women have the reasoning power to know that if we did no: say it, it must have been in the minds of those who are responsible for that same program, and such vilifying statements will act as a boomerang upon the originators. There is nothing too low for these vilifiers to give voice to, but this is about the rankest, most virulent attempt to injure us which shows conclusively that they must acknowledge their defeat in the unjust boycott instituted against this firm.

Fugitive Convicts Seemingly Escaped Toils Woven Around Them.

Scouting Parties Unable to Come Upon the Outlaws. Three of Them Supposed to Be in Black Rock Canyon and Eight Others Near By-Company H Camps at Greenwood-Bridge Being Guarded.

(BY THE ASSOCIATED PRESS-P.M.)

DLACERVILLE, July 29.—The pursuit of the escaped convicts from Folsom has centered on Greenwood Canyon, especially to that part known as Black Rock Canyon, which lies between Cool, Pilot Hill and Greenwood. Sheriff Bosquit's posse has located three of the escaped convicts in that vicinity, and the militia have located the remaining eight close by. Company H has received orders to close in and patrol the canyon. Ex-Sheriff Conroy of Placer County is with Sheriff Bosquit, and Sheriff Kenna of Placer County is now at the other end of the canyon in the Forest Hill country. Provisions for two days are being forwarded tonight to Company H.

Later-The Associated Press representative had a conversation tonight with District Attorney Peters, of Company H, who is tonight stationed at Lotue, and with Sheriff Bosquit, who is at Cool, and both say that nothing of a definite nature has been learned regarding the whereabouts of the escaped convicts, so far as they have been able to ascertain, although the country from Lotus to Cool has been covered. Company H camps tonight at Greenwood Creek, about halfway between Lotus and Pilot Hill, and the country this side of Black Rock Canyon has been scoured by Capt. Swieler's company very thoroughly.

Reports from scouting parties now at Greenwood are to the effect that outside of trails supposed to be those of the convicts, absolutely nothing of a definite nature of their whereabouts is now known, \$ notwithstanding prior reports to the contrary.

FOREST HILL'S THRILL. [BY THE ASSOCIATED PRESS-P.M.]

FOREST HILL, July 29 .- A report reached here tonight that five escaped convicts, heavily armed, were seen north of Cool, heading in the direction of Forest Hill. Armed deputies are watching the river and hills south of here. The excitement here is intense.

The convicts are probably headed for the railroad, which affords easy access at almost any point between Auburn and Towle. Miners long the river are gathering up the little bags and cans of gold dust and are hurrying to Auburn. The Bulcher ranch is located on the stage road between Auburn and Forest Hill, the noted mining camp. This road is tra-rersed by the United States mail and passenger stages and Wells, Fargo & Co.'s express, and is largely util-ised by the miners and prospectors of

CHINESE REACTIONARIES.

PEKING, July 29.—The Chinese who are advocating government reforms have been terrorize by the readoption of the old policy of repression, as instanced by the recent arrest at Shanghai of Chinese editors on charges of sedition. These arrests are interpreted here as indicating that the extreme conservatives are in the ascendancy, and that the government has determined to suppress the freedom of speech, which has prevailed since the upheaval of 1900. The names of forty residents of Peking, who are accused of liberal tendencies were presented to the Dowager Empress today by the reactionary officials, who recommended that they be severely punished.

SEARCHERS EXHAUSTED.
(BY THE ASSOCIATED PRESS-P.M. AUBURN, July 28.—Two of the searchibs party were picked up near Cool. six miles from Auburn, late this afternoon, in an exhausted condition. They had been trailing three of the convicts, and report them going in the direction of Auburn. Sheriff Kenna and posse have left Greenwood and are hurrying to Cool. Ex-Sheriff Consoy and posse have opened up headquarters at the Bulcher ranch, and are preparing to watch all points of escape. They cannot ford the river at this point on account of the steepness of its banks, and the big wire suspension bridge is being closely guarded. The escapes are certainly endeavoring to make for the railroad, and it seems almost a certainty that the conwicts and the officers will come together in the morning. AUBURN, July 29.-Two of

"We have not seen any of the convicts, though the scouts have discovered traces of them as they are making their way through the county. The country is so rough and hard that they make scarcely any trail except where they make a stopping place. Our scouts have been in all directions over the country in this neighborhood, and from the signs they have discovered we have hope of locating the escapes. We are about to change our plans, and will make another roundup of the country.

LISBON (Portugal) July 29.—[By Atlantic Cable.]. King Charles is expected to visit the United States squadron on Sunday. The reception accorded to Rear-Admiral Cotton and other American officers by the King and Queen Amelia at the royal castle at Cintria, fourteen miles from Lisbon, on Monday, was most cordial. Admiral Cotton, while at Cintra, visited Queen Maria Pla, mother of the king, and the Duke of Oporto, brother of His Majesty.

There were 250 guests at the banquet given at the Ministry of Marine last night in honor of the Americans and at which all the Cabinet ministers were present. Admiral Cotton, who was greeted with cheers, made a speech during which he culogized Portugal and thanked the officials for the hearty reception accorded to the American warships. He referred to the exaggerated case of a petty squabble which occurred between the police and some case of a petty squabble which oc-curred between the police and some American sailors and declared that re-lations were most friendly. "The convicts are traveling pretty fast, considering the conditions as they cannot move an inch except in the day, owing to the chaparral. The difficulties are so great that unless some of them know a good deal about the country here they are in danger of getting lost. In that event, some of them might make a run for the open trails, and then our boys would quickly be on them. All that my men are complaining about is that they have had no chance to use their ammunition.

The fugitives were located on Greenwood Creek, north of Granite Hill postoffice, and above Greenwood, where they had evidently camped over night. One posse was on one side of the creek and the other posse on the other side. The posses were a considerable distance away when they discovered the convicts. Both sides opened fire, but if any effective shots were made no report of it has been received here. The convicts avoided a decisive encounter, and are supposed to have made a circuit and to be working back in the general direction of Coloma.

"We could have got every one of the convicts," said Reese, "if they had been by themselvés. But as it was we just had to stand there and see them walk away from us. They were not three blocks away. The convicts could not shoot at all. Lots of the bullets intended for us went way above our heads."

Reese said one of the guards, whose name he did not know told him that Allison was shot in the groin. He turned to Woods, the leader of the convict band, and said: "They've got me; for God's sake, kill me."

Woods told Allison to kill himself; that he (Woods) would not do it. Allison then drew his revolver and shot himself through the head, dying instantly.

should their services be required in connection with the Folsom prison break.

The Bee received a message from Folsom prison at 3:15 o'clock this afternoon, summing up the situation at that hour. Guard Cochrane, who was terribly cut by the convicts, is on a fair way to recovery. The doctors say his condition is satisfactory. None of the escapes has been captured. The military is now between Lotus Point Hill and Cool. A party of Sheriff's officers have gone up Greenwood Creek. The country is well surrounded, and it is believed that the convicts cannot possibly get away.

PREVENTED A GENERAL RUSH.

PREVENTED A GENERAL RUSH.

(BY THE ASSOCIATED PRESS—A.M.)

SACRAMENTO, July 29.—The Beeth afternoon first gives the account of the exciting part played by State Prison Director J. H. Wilkins in the prison break at Folsom Monday morning. Although Wilkins is a newspaper man himself, and knows what a good story is, he has modestly refrained from mentioning to any of the score of newspaper men at the prison a word concerning the circumstance of his holding a crowd of convicts at bay, Yet this is what he did, and his only armament was a trusty revolver. Wilkins was visiting the prison as the guest of Warden Wilkinson. He was awakened early Monday morning by loud raps at his door and the cries of a servant that the warden and captain of the guard were being murdered down at the captain's office. When Director Wilkins hastily donned his outer garments, and, seizing his revolver, lost no time in getting down the stone steps and around the corner of the prison to the captain's office. When Director Wilkins reached the office the scene was one of blood and disorder. The escaping convicts were just leaving the prison with their hostages, and their maniacal yells filled the air. There were at that time 300 convicts outside the prison building.

Every man authorized to give the order to fire was in the hands of the

he knew that if they rained their mis-siles at the escaping convicts the of-fleers would be killed, as well as the conspirators. A hundred convicts who were not part of the escaping crowd had rushed to the scene of disorder, and were themselves a yelling mob, ready, no doubt, to make a rush for liberty themselves if they found the way clear. It was a moment for ac-tion—for a man with the eye and voice to command—and Director Wilkins, a modest interior journalist, proved that man.

modest interior journalist, proved that man.

Whipping out his revolver, Wilkins pointed it at the crowd of excited convicts, steeping back as he did so to make his position the more secure. Then he stopped, and in stern tones commanded them to reënter the prison. The door was unlocked for them, and soon the bolt was shot, with every man of the crowd on the inside.

Wilkins did not mention the incident to anybody afterward, and even many of the officers were not made aware of the manner in which the director saved a possible general rush from the prison inclosure.

IDAHO SPRINGS (Colo.) July 29—
[Exclusive Dispatch.] Twenty-two members of the Miners' Union in this vicinity, including President Howard Tressidel and other officials, were arrested here today, charged with conspiracy in blowing up a mine.

The wholesale arrests were based on the attack on the Sun and Moon mine.

The wholesale arrests were based on the attack on the Sun and Moon mine, located three miles from here, which occurred last night. An explosion of dynamite wrecked several buildings, caused a big fire, and endangerd the lives of many workmen. The attack resulted in the kiling by the watchman of Philip Fire, a member of the Miners' Union.

the strike of miners in this region, which was declared last February. The mine was the first to be affected, but after four months of idlenes non-union men were secured and operations have continued ever since.

The explosion which occurred last night was terrific. The transformer house was wrecked, and the oil in the transformers set fire, threatening the shatthouse with destruction. Twenty non-union men were working in the eighth level of the mine at the time of the explosion, but they excaped injury. The damage to the works amounts to several thousand dollars.

The watchman was aroused by the explosion and rushed out in time to see two men running away from the burning transformer building. He fired several shots at them, and later a wounded man was found near by. He was taken in charge and the company physician sent for, but died this morning from his wound. The dead man was identified as Phillip Fire, a member of the Miners' Union which started the strike.

After the explosion Under Sheriff Charles Peck of Georgetown organised a posse and hastened to the scene to protect the Sun and Moon property from further violence. Manager Sims of the Sun and Moon Company declared that no explosives of any kind were ever kept in or near the transformer building, where the explosion occurred.

IDAHO SPRINGS, July 29.—After a business meeting tonight, 500 citizens of Idaho Springs went to the City Jail and took fourteen of the men arrested in connection with the blowing-up of the Sun and Moon Mine building last night, marched them to the city limits and told them to leave the place and never return. The men driven out include Howard Tressidel, president of the local union; A. D. Alcott, vice-president; George Becker, secretary. Peter Bender, treasurer and two or three members of the Executive Committee. All the others are prominent members of the union. Some of the men complained that they had no money and a purse was made up for them.

WASHINGTON, July 29.—(Exclusive Dispatch.) One of the Senators who will be called into conference with senator Addrich at his Rhode Island farm, August 10, on the proposed currency bill, has given some of his views at that measure. He says:

"The bill has been rather roughly grawn, but before the conference many of the members of Congress interested in fanance will have had an opportunity to examine it and give their views. One of the most popular features which will be incorporated in the measure authorizes the Secretary of the Treasury to deposit in the national banks receipts from the collection of customs, as well as internal revenue receipts. Only the latter is allowed under the present law. The receipts from intergresses law. The receipts from intergresses.

many, but are ordinarily more than any, but are ordinarily more than any, but are ordinarily more than any more and any more in trade ordinarily more than any more and whin demands of similar character are insistent constitutes a serious handless to business interests generally. Every day means the withdrawal from trade of about \$1,000,000, and he serious post of the Treasury is complete to resort to unusual means to resolt the money stringency.

"Another failure of the Aldrich bill gave to the theorem yearing of the Treasury authority is supply as security for government funds so deposited State, municipal county and high class railway boats, as well as government bands. The railroad bonds acceptable under the provisions of the bill were limited to reads which have paid dividends not less than 4 per cent. uninmyptody for ten years. As a matter fact, that class of bonds is not held yestional banks. Few railroads went benefit the provisions of the years ago of the passing a dividend. The bonds it is class dwich come within this are gilt-edged and worth more as government bonds. If the bonds fils class were held by banks, they deposit to secure \$100 worth of second to secure \$100 worth or second passing a circulation, or put one of them up \$100.

It is a feature of the Aldrich which is quite likely to be dropped the new measure. The floor of the Alkire's store did not burn through, and a por-tion of the big reserve stock in the basement will be saved unless ruined by water. The Alkire stock was esti-mated to be worth nearly \$70,000, and was well insured. The Burtis stock was estimated at \$15,000, one-third in-sured. The buildings were worth \$20,-

was well insured. The Burtis stock was estimated at \$15,000, one-third insured. The buildings were worth \$20,-500, but the owners are absent and the insurance is unknown.

The fire originated in the back part of the Burtis store, presumably from spontaneous combustion, as a quantity of oils, cotton waste, etc., were in the building. Only the desperate work of the firemen saved the Ellington block on the east and the Cotton block on the west from destruction. The latter caught fire at the windows frequently, but the building was saved with slight damage. The first floor of the Cotton block was occupied by the National Bank of Arisona, Druggists Elvey and Hulett, law offices and a harber shop. The drug stock was considerably damaged by smoke. The second floor was occupied by offices and two families, and everything of value was removed.

J. Reed, owner of building, \$6000, insurance probably \$4000; D. H. Burtis, plumbing stock, \$15,000, insurance, \$5000; Mrs. P. T. Burtis, owner of building, \$5000, insurance, \$5000; Mrs. P. T. Burtis, owner of building, \$5500, insurance, \$2000; Elvey & Hulett, druggists, loss by smoke, probably \$1000, fully covered.

The Cotton Block on the west, which caught fire several times, several hundred dollars worth of damage. None of its tenants suffered by fire, but all suffered loss by smoke and the removal of effects. Some are insured and some not. The principal tenants on the ground floor are Elvey & Hulett; National Bank of Arisona, no loss: Stevens's barber shop, Morton & Edwards, law office, and the Arisona Building and Loan Association. On the second floor are the law offices of Thomas Prescott, residence apartments of Mrs. Williams, Mrs. Aylwin, Mr. and Mrs. Jack Blinkcorn (now in Los Angeles,) and J. M. Burnett.

SAN FRANCISCO, July 29.—Invitations for a conference have been sent out to all the leading wine men of California by the California St. Louis Exposition Commission for the purpose of ascertaining the best way to have California wines and brandies exhibited at the exposition. In the center of the Agricultural Building at the exposition, which covers an area of twenty acres, is a space of large size, including in all 4732 square feet, which the wine men of California can occupy for their exhibit, if they wish and they are ready to make the proper arrangements.

and they are ready to make the proper arrangements.

The commission favors a wine structure in the form of a canopy upheld by many columns and roofed with bottles of wine instead of tiles. At either end would be placed a huge wine cask capable of containing thousands of gailons of wine, and in the center would be a wine vat large enough to be used as a sampling room. The expense to each man would be small—probably not more than \$100 to each exhibitor. A large attendance of representative wine men is expected at the conference, which as set for August 6, in this city.

Yukon Council Gives Workmen Prior Lien on Half of Output Regardfrom Common Cheating by Unscrupulous Employers.

BY DIRECT WIRE TO THE TIMES. TACOMA (Wash.) July 29.—[Exclusive Dispatch.] The Yukon Council decided last week to allow miners a prior lien on 50 per cent. of the entire output of the Klondike mines. After a hard fight, Councillor Pringle succeeded in getting the resolution altered, so that a supplier of wood is given equal right with a laborer of the mine proper in a prior lien on 50 per cent. of the output. The clause to the effect that labor may have a lien on 50 per cent. of the product, unless an agreement is signed to the contrary, was stricken out by unanimous vote. It is understodd that a laborer has

was stricken out by unanimous vote. It is understodd that a laborer has the right of lien on all the product of a mine when there are no prior mortages or other prior encumbrances, but up to 50 per cent. of product he has priority over all encumbrances.

This decision is causing rejoicing among miners who have been demanding such a ruling for months. Employers, in increasing number, have been either mortgaging their properties or banking the proceeds of their clean-ups, leaving the laborers to hustle for their money. Such procedure is made possible by the fact that most wages are paid in lump sums at clean-up time, and settlements are frequently deferred until the owners can take their output to Dawson and sell it to the banks. The new ruling of the Council will make it easier for work-men to enforce their rights.

With a number of other Mexicans the two men had been at the tough Pantheon saloon on Ferguson alley, in the heart of the tenderioin district. The entire party had been drinking throughout the evening, and all were under the influence of liquor. In the saloon Tores became involved in a fight with two men, but Rivas was not a party to the encounter. In fact he took Torres's part, and saved him from a terrible beating.

The party then started to their homes in Sonoratown, and by the time Ord and New High streets was reached the others had left Rivas and Torres, both going farther north along New High street. Torres was fighting drunk, and on the way had tried to fight several members of the party. When they reached Ord street, Rivas's statement is, Torres turned upon him and demanded for cents additional. When Rivas told him he did not have it he drew his revolver from his coat pocket and shot him.

Rivas dropped in his tracks, his clothing being on fire where the pistol had been pressed against him. Torres ran to Buena Vista street to the house of his brother, where he secreted the gun, and secured a hat, his own having been dropped as he ran. Several persons, among them Patrolman Daniels, attracted by the shot, ran to the spot.

A BEL RIVAS was shot in the abdomen and probably fatally wounded, shortly before midight by Valentino Torres at Ord and New High streets. Both are Mexicans, and the cause of the shooting is differently stated by each. The man who did the shoeting evidently intended to murder his victim, for he held a 3t-caliber revolver directly against his body and pulled the trigger. Torres was captured within half an hour by Deputy Constable Redono had met him on the street a short distance away from the scene of the shooting and as he answered the description of man last seen with Rivas, he placed him under arrest. At the Police Station he stated that he had fired the shot because Rivas had attempted to stab him, and at the same time had thrust his fingers into his mouth in such a manner as to almost tear loose his lower lip. He could not say why Rivas had assaulted him and admitted that the latter had saved him from being severely beateh by a crowd in the Pantheon joint. No knife was found on Rivas, nor did he have any money, which goes to copfirm his statement that he had given Torres all he had. Torres was locked up to await the result of the injuries of his victim. Police Surgeon Smith, assisted by several other surgeons, among them Drs. [BI THE ASSOCIATED PRESS—P.M.]

ROME, July 29.—During the meeting of the congregations, the forms to be used during the conclave were discussed among the cardinals in order that each might be able to learn how to employ his ballot. After the meeting Cardinal Oregila requested the cardinals to visit their cells and be prepared at tomorrow's meeting to present any complaint which they may have. Superstitious people here find an omen in the fact that Cardinal Rampolla drew apartment No. 58, which in the book of the lottery, stands for Pope, and consequently they come to the conclusion that fate has marked him to be the next Pope.

Cardinal Agliard has relinquished his cell, near the Sistine Chapel, to Cardinal Cretoni, on account of the latter's illness. Over the door of each of the cells has been placed the coatof-arms of the cardinal who is to occupy it. Should all the sixpy-two cardinals now in Rome enter the conclave it will be the most numerously-attended in history. The conclave which elected Pope Leo was attended by sixty-one cardinals. In the past, Popes have been elected by conclaves containing as low as nine.

The ecclesiastics who are to watch the sliding doors which will be the only means of communication between the conclave and the outside world have been requested to be present at the Vatican Friday afternoon to assume their duties. The sliding doors will only be opened between 9 and 11:30 o'clock in the morning and between 5 and 7 o'clock in the evening. At all other times they will be locked. NOTABLE EVENING PROCESSION.

IBY THE ASSOCIATED PRESS-P.M.]

ROME, July 22.—In the evening there was a procession through the streets to the tombs of King Humbert and King Victor Emmanuel. It passed off quietly, though thousands of persons witnessed the demonstration, and the procession itself was over a mile in length. Throughout the route the plazzas and streets were thronged with orderly spectators, who heartly cheered the red-shirted Garibaldian veterans and other representatives of Italian liberty. All the shops were shut and there were more outward signs of mourning than have been seen in Rome during recent years. The procession, which was mostly composed of local patriotic societies and bands, was very picturesque. The Veteran Corps carried many banners and Italian flags draped with crape, beside hundreds of wreaths which they laid on the tombs of King Humbert and Victor Emmanuel at the Pantheon.

The general opinion was expressed that the anti-clericals succeeded in making a successful counter-demonstration against the recent activity of the clericals, but that they did so without any breach of propriety and without wounding the feelings of the Catholics and regardless of political affiliations. Pe-ru-na is Invaluable to Ailing Women.

A Beautiful Michigan Girl Sends Her Thanks to Dr. Hartman.

Miss Celia Harrington, 203 Second avenue, Detroit, Mich., writes:

"Weakness has filled many months of my life with suffering. Through carelessness I caught a severe cold two years ago, which settled in catarrh and seriously interfered with the regular functions of the body, and made me nervous and irritable. I began taking Feruna and found in it a faithful helper, as it enriched my blood and invigorated the whole system. I have no pains now and am always well. I heartily recommend Feruna as a reliable medicine."

In Peruna these women find a prompt and permanent cure. Thousands upon thousands of testimonials to this effect are received by Dr. Hartman every year. The good that Peruna has accomplished in this class of cases can scarcely be overestimated. The great popularity of Peruna as a catarrh remedy has tempted many people to imitate Peruna. THE WALL-STREET FLURRY.

Wall street has been going ough a somewhat trying time during the past few days; and some peo-ple who thought themselves on Easy street have been troubled with in-somnia and bad dreams. On Friday last the market value of the steel trust stock was only \$459,000,000. as compared with \$300,000,000 on April 20, 1901, a loss, on paper, of \$341,000,-000. Referring to conditions in the market, James R. Keene is reported as

"It is a very extraordinary situation, and for some reason or other the public refuses to buy. It has been out of the stock market for two or three months, and its reappearance in Wall street would be a welcome signt in that gloomy financial district."

It is not so very extraordinary, after all, to an intelligent onlooker. They refuse to buy, because they have been getting wise. The fact is, as The Times has previously stated on

several occasions, the stocks of these big manufacturing enterprises that been most unmercifully watered, for the purpose of disposing of them at ont of get-rick-quick scheme on an impense scale. Unfortunately for the poculators, however, the public nibbled, but refused to swallow the bait whole, so that a great majority of the industed stuff was left on the hands of the promoters. Now, some of them have gone under, in the attempt to carry the heavy load. Add to this a fight between big speculators for a fight between big speculators for a fight between big speculators for a committee of prominent English sclentists tee of prominent English sclentists to make a test which they say leaves no possibility for further question or doubt on this subject. The result than he knew, even as Jules Verne did in his description of the submarine beat, not to speak of his "Around the have the whole situation in a nut-

eontrol of certain properties, and you have the whole situation in a nutshell.

The flurry in Wall street has nothing to do with the general condition of the country. As. Mr. Keene said, of the country. As. Mr. Keene said. business is good, crops are excellent and gross earnings of railroads are than they were last year, yet cause of what they have learned in

of many securities. Pinally, it should be remembered that the prosperity of the country no more depends upon the doings of the bulls and bears on Wall street, than the progress of a city depends upon

The study of psychic phenomena is, indeed, a most fascinating one, and far too much neglected. We spend a vast amount of time in studying the shell in which this soul of ours is encased, but how much do we have shell in which this soul of ours is en-cased, but how much do we know about the soul itself? Why do not some of those public-spirited million-aires, who are giving-millions for the cultivation of the human mind, devote a few of their surplus dollars to sup-porting a school for the investigation and study of the mind itself?

The deed that most needs doing just now in California is for the State Board of Equalization to jack-up the assessments of the counties which possess assessors who are too easy in their notions as to what property is worth. In regard to this test of telepathy in England, the statement comes from William Stead, well known as the fearless English journalist who suffered temporary martyrdom in the shape of a short imprisonment for publishing in the Pall Mall Gazette the facts in regard to the moral rottenness of the modern Babylon, which involved many persons of high degree, including the King of the Belgians. Mr. Stead, referring to the results of the test, says: The negro appears to be jumping out of the fire of Evansville into the frying pan of Mississippi, and other roast-ing centers.

Mr. Stead, referring to the results of the test, says:

"From positive evidence that I have at hand, I have to make without qualification the statement that transmission of long-distance messages by direct mental vibration, i. e., telepathy, is an accomplished fact.

"To myself and a committee of other gentlemen the seemingly improbable feat of mental telepathy at great distances was shown to be absolutely possible.

"Indeed, it was positively proved. It has been demonstrated in a manner that has left none present with a shadow of doubt in his mind. Every precaution was taken to make imposition impossible."

The case involves twenty acres of valuable oil lands at McKittrick, held by the defendant under a patent from the State for agricultural lands, and the plaintiffs have laid claim to them as mineral, alleging that they cannot be held under the former title. They passed into State Control under the grant for the agricultural College, but it is contended that as mineral lands they were expressly exempt by law making the grant and therefore the State could not give title to them but that they remained United States lands.

The question may also indirectly affect the title to about 160 acres additions.

EVENTS IN SOCIETY.

A pretty summer wedding of especial interest to the young people of University was that celebrated at 8:30 o'clock last evening at No. 899 West ties being Miss Mayme Isabelle Cowan and Burton Welmore McManus, both of this city. The ceremony was performed by the bride's father, Rev. C. V. Cowan, pastor of the First Methodist Church of Phoenix, Ariz. Rev. Mr. Cowan was assisted by Rev. Dr. S. A. Thompson of Los Angeles.

The knot was tied in the reception

One of the most important deals in the local oil fields in weeks was closed yesterday when a half interest in one of the best producing properties was acquired by a syndicate that is planning extensive developments.

The property was that of the Union Consolidated Crude Off Company, for several years one of the best producers in the home territory. According to the terms of the transfer, the company has disposed of that part of its holdings situated in the middle-western end of the field. It consists of about thirty producing wells, besides considerable territory that is open for development.

The purchaser is planning extensive development, and as soon as the property has been turned over, will begin drilling several additional wells. New riss will be ordered, and several new pumping plants installed.

Although the consideration is not given, it is believed to be about on well that is producing or sale to the work of the most course.

Mr. Admanus assisted by Rev. 27.

The kinot was tied in the reception hall, beneath a white dove with spread plumosus, potted plants, ferns and overliances, then glants, supplied bower. The other rooms were decorated in harmony with this socheme. At the plano, as the bridal party entered, Roy Crist played the Lohengrin Wedding March was played as sonn's Wedding March was played as sonn's Wedding March was played as the mated couple passed out. The full Episcopal ring service was used.

time, Mr. and Mrs. McManus will be sold at accept a share on all its capital stock outstanding. It will become delinquent August 15, and all stock unpaid by September 4 will be sold at auction. This company's property adjoins that of the Monarch, and there is one well that is producing, or able 40 produce, large quantities of oil.

The Peerless company will on August 1 pay another dividend of 314, 600. This will make a total of 3146,000 paid out by this company to its stock-holders since the organization of that corporation.

On August 13 Constable James Meany will sell at public auction the interest of the Clarke Refinery Company on the southeast quarter of section 7, 29, 28, at Kern River, to satisfy a judgment for 3191.90, given in Justice Millard's court in favor of Dinkelspel Bros, against the now defunct corporation. The balance of the property was attached by the Sheriff, underjudgment in favor of other creditors.

out of ten looks just like other Chinese, is carefully measured by the Bertillon system of identification, which is now in operation here. This is the first port in the United States where the system has been adopted, and it is expected to do away entirely with the fraudulent use of certificates that has caused great annoyance to the inspectors since the exclusion act took eeffet. Dr. M. F. Galliager of Washington, D. C., was sent here by the Treasury Department to establish the system, and has completed his work. Today he left for San Francisco to put it in operation there, after which he will proceed to Portland, Port Townsend and all along the Canadian border, to make the same arrangement for keeping out the clever Chinks who have no right in this country.

Seeing Wheels Go Round.
One of the eccentricities of genius is a fondness for taking machinery to pieces and putting it together again—when possible. Louis XVI, before the French sent him to the guillotine, destroyed nearly 450 clocks of various sizes, trying to discover the art of the watchmaker.

GEORGE M. SMITH.
Pastor Hamilton M. E. Church.
Rev. Mr. Smith is a white prescher. watchmaker.

Harry Conor, the comedian, has a weakness for clockwork. He was out calling upon a lady fond of antiques recently, and was shown a beautiful gravity clock which his hostess assured him was over three hundred years old. It operated on the principle of the indicator on an elevator, showing at which floor the elevator is. A weight, controlling a set of wheels, spun the hands around and around to indicate the time. But the hostess couldn't make the clock weep the proper time, which isn't surprising, as it was made of wood and seemed very antique. Conor asked permission to take the clock home with him, as he believed he could make the clock, rather a cumbersome bundle, to his quarters at the Catholic Club, where he is living, and proceeded to take the entire thips to pieces. According to his own account, there were only nine wheels to the works a weight, a roll of string and a couple of levers. But, like the celebrated king of France, he knew no more after the dissecting than he did before. For three weeks Conor vainly tried to sort out the different wheels and reconstruct the clock.

"Finally," said the comedian, "I sent the whole affair to a jewelry store and told them to put the thing together. They have been at work on it now for a week. I hope to have the thing in perfect order when the owner returns from Europe in September. It is a valuable clock, and I should hate to ruin it altogether."—[New York Times.]

SCHOLARSHIP CONTEST.

COLORED CANDIDATE MAKING PROGRESS.

Black has gained a victory over brown in the scholarship war of races. Soh Sang Nan, the Korean, pulled up ahead of Vada Watson, the Afro-American representative, Tuesday. This temporary triumph of the Oriental roused the fighting blood of the colored population, and as on former occasions, "the colored troops fought nobly." The result is that in the last twenty-four hours Miss Watson has advanced from twenty-eighth to twenty-sixth place in the scholraship score, thus out-distanting so he ship are by getting enough points to place him ahead of Bessle Barclay, who retrograded from twenty-sixth to twenty-sighth place. Miss Barclay's fall is due to ill-health, she hardly being able to do any canvassing in the last few days. Soh Sang Nan's support is coming chiefly from Christian people who sympathise with him because he is trying to get an education so that he can return to his native land as a mission-ary. Rev. Mr. Smith is a white preacher, but he does not draw the color line in matters of education and religion. Miss Watson belonged to his flock in Pomona several years ago, and he is therefore well qualified to judge of her own port of the scholarship contest has been coming from people of her own race, but a number of generous white folk including such prominent citizens as Mark Sibley Severance of Los Angeles and Arrowhead, San Bernardino county, have assisted her materially, because they believe her to be a deserving girl and worthy of winning a scholarship.

J. Ed. Vaughan, the trap shot, has had another chance to win some money. J. A. Cox, a visiting shooter of considerable ability, has offered Vaughan a match with a \$100 side bet, 100 blue rocks, Vaughan to shoot at 18 yards and Cox at 14. Vaughan has signified his willingness, and nothing remains but to name a time and place. Vaughan recently broke 95 per cent. from the 18-yard mark at Santa Barbara, and ought to be good for 90 per cent. with tolerable regularity if shooting in anything like his usual form.

Mark Shaughnessy, well known in local sporting circles and particularly in the fistic world, has returned from a long trip to Eastern points. He expects to arrange fights for Tommy Felix and Buddy Ryan in the immediate future. Feltz wants the winner of the Forbes-Neil argument, and Buddy Ryan wants a crack at Eddie Hanion. Tommy is a legitimate bantion weight, one of the few good one in the country. He can do 115 regularly. Ryan has been in the feather weight class and will hardly conoede 120 to Hanion, though that is the figure. Eddie is sticking for nowadays.

Shaughnessy saw the Root-Gardner will the Detroit and was disgusted with Cardner's showing. He thinks Fitz-simmons could make a "sucker" of Lowell George in three rounds.

T EWIS FREEMAN NOT TO ATTEND TOURNEY.

HOW HE BROKE INTO NORTHWEST-ERN TENNIS LAST YEAR.

A Tale of a Surprised Englishman, Bet, a Broomstick and Bottles of Wine-General Regret that Stock Fight Between Bell and Champion Will Not Occur.

Apropos of the recent decision lewis Freeman to defend his title Lewis Freeman to defend his title of champion of the Northwest, won last year at Victoria, B. C., rather than the local honors he wenrs, some of the court enthusiasts are telling a good story. It is in regard to the way Freeman made his debut at Victoria, and no affidavits go with it, though they do say in Pasadena that the tale is the "real goods."

It appears Freeman took a three-weeks' trip into the mountains hunt-

northwestern tournament last year and having in that time shunned such comforts as razors and barbers, his manly features looked like the proverbial last year's bird's nest when he finally came down out of the wilds and reported at the courts in Victoria.

Nobody knew him, of course On this particular day a pair of Englishmen were playing a very ladylike game, and Freeman sauntered around to the umpire's stand from force of habit and watched them a while. As he did a haif smile lit up his face—Alf Bell and some others can tell volumes about the magnetic effect of that selfsame smile—and finally it deepened into a sarcastic grin. Freeman was thinking of what any of the Sutton girls would have done to the players he was watching.

Freeman certainly did not look like a tennis player; he still wore his old mountain clothes and the Englishman who first noticed the sneer on his face was not to be blamed for making a very natural mistake. He remarked to his mate across the net: "Rathah strange fellow to me—ah—interested in our game—is he not?" The other agreed he was quite strange. Freeman continued to smile. Finally the little Englishman having played his set suntered up, and volunteered: "Pardon me, but—ah—do you understand the game of tennis?"

That was too much for Freeman and he retorted: "A little, my good man; in fact I think enough so that I could beat you handsomely with this sawed-off broom," and Freeman picked up an abbreviated affair used for sweeping the court. The Englishman was incredulous and they laid a bet: Freman is said to have carried out his contract, but the Englishman put up a stubborn fight.

Now, they say in Pasadena, every time Freeman looks at the stump of a broom that rest on his wall, and inspects the cup he won up North, he

the health of the good man that had beaten him.

General regret has been expressed that Freeman will not be here this year. His absence means Alfonso Bell will almost certainly win the cup, for Bell's name is already on it twice. Without the splendid tennis of Freeman, the tournament will lack one of its best stock features; the final argument between Freeman and Bell, both of whom usually go through to the finals and then have to fight it out. Usually this one match is worth all the rest of the week.

HAD PLENTY OF SPORT.

Bill Ware, Jim Trussel, Francis
Frankhouse of Los' Angeles and Cy
McCormack of San Gabriel returned

from a three weeks' hunt-Frankhouse of Los Angeles and Cy McCormack of San Gabriel returned yesterday from a three weeks' hunting trip to the western end of the county, and report having killed four deer. They not only tell a straight story, but have a big lot of jerky to show for their prowess. They spent the greater part of their time at the Bailey ranch in the far end of Antelope Valley, and altogether had a delightful time. They account for the small number of deer killed by stating that the weather was warm and they were too lazy to climb the higher mountains for them. Ware says they saw at least 400 does and could have killed wagon loads of these, for they came close to the camp to eat the allifatia.

The boys state-that there are plenty of deer in that locality, but that hunters must walk for them. Mr. Ware says he will go back to the Bailey ranch about August 20, in company with Jim and Jack Jeffries and the party will stay a month or more.

weeks, and the three on the card are of more than ordinary moment to the followers of the game.

The first is the Britt-O'Keefe fight in San Francisco tomorrow night and this will surely draw a big crowd. The men have already fought twice, Britt losing to O'Keefe on a foul at Portland and then fighting him a draw at Butte. Both contests were unsatisfactory to fighters and spectators alike and the go tomorrow night is expected to settle the supremacy. Both are said to be in prime condition and a rattling mill is looked for.

The next is the meeting between Dixie Kid and Mose La Fontise at Seattle next Thursday night. La Fontise is away up toward the top among the middle-weights or heavy welters on this Coast, and it is said the only fight he ever lost was to Walcott in Butte some weeks ago. He is a hard proposition for anyone near his weight and the Dixie will not find an Al Neill when he goes against Mose. Any pug who can make a showing with Walcott is surely stepping some. Dixie is believed by some-to be a comer and his work against La Fontise will be watched with a great deal of interest by local men.

The big fight, of course, between Jeffries and Corbett, is the great event of the year, and it is to come off on August 14. It is barely possible that Jeffries and Corbett, is the great event of the year, and it is to come off on August 14. It is barely possible that Jeffries and Corbett that he is not. Fitzsimmons will fake his place and the fight would lose none of its interest by such a substitution. Fitz is one of the best fighters that ever lived, and a go with Corbett would draw just as well as a Corbett-Jeffries may not be able to fight on account of his sore leg and in the event that he is not. Fitz is one of the best fighters that ever lived, and a go with Corbett would draw just as well as a Corbett-Jeffries fight. It is more than likely that it would be a better card, for the opinion is so general that Jeffries will beat Corbett that the as practically simmered down to a question of how long Corbett

taken Al Fellows, the Chicago bantam, under his management, is out with a challenge to match Fellows against Tommy Feltz, Johnny Reagan or Harry Forbes, or any one in their class. This includes Billy De Coursey of this city.

tionals has signed Bill Loughead as a third baseman. Two years ago he played with the Spokane team of the Northwest League. He is a good batter, a fast man on the bases and can also play an infield position.

A more finished contract jumper than Hollingsworth has at last been discovered in Dennis McCarthy, the pitcher, He played with Tacoma last year and signed again for this season with that team. Some time ago he jumped Tacoma for the Seattle Coast League team and then hopped back to Tacoma. He stayed there several weeks and then jumped into an Idaho bush league. Later he signed with Lohman of the Oakland Coast League team and after being with that team for one day hopped to Dugdale's club of the Pacific Nationals.

The Portland team has signed a new pitcher named Dan McFarland, and he is expected to do wonders in keeping the Browns up among the good teams. He is from the Rochester team of the eastern league, and formerly played with the Montreal team. He has won half of the thirty games pitched this season, bats .280 and fields over .550.

girl was left lying there. They couldn't throw her out, sick.

As Mrs. Brewster was nervously preparing her first luncheon, and the guests were decorously seating themselves, in came the black girl on the fly from the kitchen—the dusky, indigpant center of a cloud of kitchen flour. She wanted to know what the other cook was doing there. Mrs. Brewster told her she could consider herself fired.

But Miss Nettle—she says her name is Miss Nettle Johnson—declined to be fired. It was a most embarrassing complication. Miss Nettle had apparently settled herself to stay. Mrs. Brewster managed to hustle her out of the room

against a door and said she would never pay a cent—"not to anybody who talks to me like that."
"But if you don't she may come back and make more trouble," said the of-ficer.

and make more trouble," said the officer.

Mrs. Brewster's eyes blazed, "Well, let her come and try 4t," she said grimly.

"Then I guess you'll have to go," said the officer to Miss Nettle.

Miss Nettle packed her grip, and her emotion overcame her and she went away with the tears streaming down her face..

Making Big Figures Small. Making Big Figures Small.

Whitelaw Reid of New York, in the annual address before Phi Beta Kappa. Society of Vassar College, discussed divorce and its attendant evils. He said: "Bix hundred and fifty-four thousand persons divorced in this country during the last twenty years."

This statement caused wrinkles and furrows to form on the forehead of one prim maiden. A flash of the eye and then a whisper to an attentive classmate: "That's equal to \$2,700 persons a year."

The classmate's brow now began to

mate: "That's equal to 32,700 persons a year."

The classmate's brow now began to denote activity—"or 3725 persons a month."

"Or 681 persons a week," said the first mental arithmetician.

"Ninety-seven persons each day sever marital relations," was the next computation.

"Why, that's only four persons an hour," came as a cheerful rejoinder.

"Pooh, only one couple every hair-hour."

Colored Evangelist Dead.

Church circles will remember the Beck family, a quartette of bright colored people who last winter and spring held evangelistic services in several of the city churches. News has been received at Peniel Hall of the death of Alexander Beck, the leader of the quartette, at Lawrence, Kan., from malarial fever. The Becks expected to start within a few weeks for Africa to labor as missionaries.

Fire in Oil Refinery. The plant of the Southern Refining Company on Elmyra street narrowly escaped destruction by fire yesterday morning. In some unknown manner the "agitator" used to keep the crude of varm enough to be easily poired from one tank to another, became ignited, and for a time a large quantity of distillate was in danger of burning. The fames were extinguished by one of the chemical engines of the fire department. The loss was nominal.

Tabour in it Again. Jabour in it Again.

George Jabour, Arabian circus fakir who "busted" the Woodmen's street fair here last fall, is again in trouble, this time in Iowa. He is now about to sue the Business Men's Association of Sioux City to recover his percentage of the gate receipts at an exhibition recently given by his troupe at that place. In all \$1800 was taken in, and he claims 75 per cent. of this sum. Jabour has been noted as being in trouble ever since he left this Coast.

CLARK'S SUGAR FACTORY

NOT FOR SALE

SAYS J. ROSS CLARK, RETURNED FROM THE EAST.

Shop Question Soon to be Taken up Again by Salt Lake Management Conscience Money Sent to Los Angeles Pacific Treasurer by Unknown Passenger.

J. Ross Clark, vice-president and general manager of the San Pedro, Los Angeles and Salt Lake railroad, resence in Utah and the Far East. When to say-that everything he knew and much more had already been published in the press of the country. As to the progress of the company's venture in the transcontinental railroad field,

Bids have been asked for on the work between Dagget and Callentes, and will be opened on August 1, and within a few days thereafter contracts

will be awarded.

Asked about the shops that the company is soon to locate, Mr. Clark said the matter had not been decided yet, nor lately considered. Other details have crowded out the shop question, which is soon to be taken up again.

Mr. Clark, when informed of the reported efforts of the sugar trust to round up the beet-sugar interests of Southern California, expressed great surprize, and stated that it is the in-

as heretofore.

'The output of the Alamitos factory this season," said Mr. Clark, "we estimate at about 15,000,000 pounds, or 7500 tons. No, we do not, want to have our sugar handled by the Western Sugar Refining Company, but prefer to remain independent." 'Is your sugar factory for sale?'

HER TENDER CONSCIENCE.

E. P. Clark, president of the Los Angeles Pacific Railroda Company, is convinced at last that there is surely convinced at last that there is surely one person in the world who cannot conscientiously beat a railway company. Until yesterday he had his doubts. Then he received a letter inclosing one dime "for uncollected fares" from some honest soul—the handwriting would say a woman—too modest to sign a name.

ton for Chief Clerk Hammond in the outer office, is not much of an exaggeration. Of the hundreds who ride the street cars of Los Angeles every day without paying their fare or feeling any compunctions thereabout, this person who forwarded the 10 cents to Mr. Clark is unique. The letter with inclosure was mailed at Ocean Park on July 28 and was stamped at the postoffice at 11 a.m.

Such a curiosity are the letter and its contents to Mr. Clark that he will have them framed. The dime is mounted in the center of the envelope, to which is pasted the letter sheet, and altogether they are to be kept among the archives of the Los Angeles Pacific railroad as a testimonial of somebody's unique honesty.
